# 1st International Conference on Natural Bio-resources: Valorization, Applications and Legislations

## Conference objectives

The First International Conference on Natural Bio-resources : Valorization, Applications and Legislations (Online IC NBR-VAL 2023) offers an exceptional opportunity for university professors, researchers, students, industrial delegates to share their experiences and research findings on all aspects of natural bio-resources.

## Event Problematic

The valorization and preservation of natural bio-resources (plants, animals and microbial) has become an unavoidable necessity. The webinar aims to highlight the appropriate strategies to valorize and preserve these bio-resources during their implications in different fields of application.
