

Important Dates

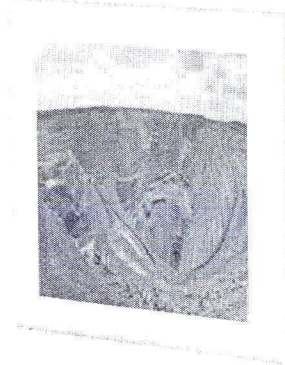

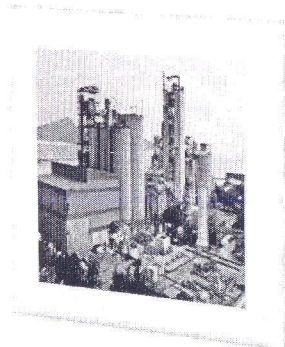

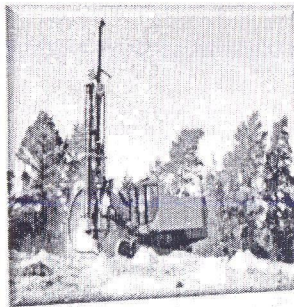

Abstract submission deadline	15/06/2026
Notification of acceptance	15/09/2026
Final program	10/10/2026
Congres Date	20-21/10/2026

REGISTRATION FEES

Student:	2,000 DA
Teacher	4,000 DA
Industrial:	6000 DA

Registration fees include:

- Access to the full technical program
- Conference badge
- Certificates for authors and co-authors
- Coffee and lunch breaks

CALL FOR PAPER

NCMEREI 2025 is a good opportunity to present and discuss new trends and exchange knowledge and experience gained in research progress in various fields of mining sciences and industrial process. Both theoretical and applied papers are welcome for submission to this event.

This Congress aims to showcase cutting-edge developments and scientific progress in mining engineering. The conference also aims to create a pivotal link between the mining industry and industrial enterprises that transform raw materials or use raw materials as additives, with the current changes especially the launch of several mega projects such as the Balad Al-Hadba project and the Ghar Jbilet mine, and to enhance cooperation and knowledge exchange at the forefront of innovations in mining engineering, electromechanics, maintenance and IA.

This first edition will be held in Tebessa, Algeria, and will be organized by the mining institut and environnrmnt laboratory, from November 18 to October 20-21, 2026. The conference includes different kinds of presentations given by researchers including keynote speakers, oral sessions, and posters.

It covers a wide spectrum of topics connected with the Mining Engineering areas, ranging from theory to practice, in terms of methodology, design, implementation, testing tools, and use cases.

Instructions for Authors

- Conference Languages: English / French
- The **abstract** sent must not exceed 300 words including the key words
- **Title** in Times New roman, bold, 14 point, capitals, centered.
- **Author** in Times New Roman, **Italic, 12 points, centered**
- **Text** in Times New roman, 12 point non-bold, justified; paragraphs separated by a line without tabulation at the beginning.

Topics

1. Intelligent Mining and Automation
2. Mining Economics,
3. Mine Mechanization
4. Mine Ventilation
5. Drilling Technology
6. Mining Geology and Geostatistics
7. Modeling, Simulation and Optimization
8. Valorization of mineral resources –
9. Mineral-Material Characterization
Mineralogy -Plant
10. Mining Policies and Mine Legislation
11. Health and Safety
12. Risk Assessment and Management in Mining
13. Durability, Fatigue, and Damage in Engineering Materials
14. Reliability and Maintenance Engineering
15. Renewable Energy Technologies
16. Electronic, and Electromechanical Systems

CIENTIFIC COMMITEE CHAIR

Pr. Djellali adel UECLT Tebessa

SCIENTIFIC COMMITTEE

Pr. Louafi Messaoud	UECLT Tebessa
Pr Aoulmi zoubir	UECLT Tebessa
Pr. Benidir Mohamed	UFM Constantine
