Registration Process at the Institute: Registration for the institute usually coincides with university registrations and precedes them by a short period, allowing those who were not fortunate enough to be allocated in their desired fields during the final allocation phase to register in other specialties. Admission to the institute occurs after the candidate undergoes a medical examination to assess physical and functional fitness. This is done after the candidate is directed to the field based on their baccalaureate grade, as follows:

- Initial direction to the field;
- General and chest medical certificate;
- Electrocardiogram
